## We've Been Making 4x4s For Over 70 Years

---

- PikUp has been in ANZ for 15 years and its 4x4 DNA stems from a vehicle heritage that stretches back over 70 years, that is the core of the PikUp 4x4 Ute.
- Features like high and low range dedicated transfer case along with mechanical locking rear differential and benchmark approach angle make PikUp truly capable off-road

\*Accessories shown in this picture are not part of standard fitment.

## PERFECT FOR YOUR FAMILY

- Pik-Up comfortably takes both city and tough off-road tracks in its stride with its benchmark 34-degree approach angle 103 kW, 2.2 Litre common rail intercooled turbo diesel engine produces a peak torque of 320 Nm.
- With Bosch Engine Management system, the mHawk engine provides proven reliability and unrivalled fuel efficiency.
- The engine valve train is driven by twin timing chain system, so no expensive belts to replace under maintenance.
- The 6-speed Aisin Automatic Transmission adds to the driving pleasure both on city roads and tough off-road tracks.

\*Accessories shown in this picture are not part of standard fitment.

New features like Synthetic Leather Steering Wheel, Large Footrest, 6 Speed Aisin Automatic (S11) combined with Comfortable front row seating with arm rests make long drives a pleasure.

\*Accessories shown in this picture are not part of standard fitment.

Driver Information System

Apple Car Play / Android Auto

# Mahindra Advantage

- Mahindra has been making Euro 6 engines for the European market since 2014.
- Using our SCR, DPF and DEF (Adblue®) Dosing technologies along with our state-of-the-art Bosch Fuel Injection systems our new 2.2 mHAWK diesel engine used on S11 AT meets Euro 6b emission standards.

## Frequently Asked Questions on ADBLue®

Technology has become so advanced the Euro 6 standard requires diesel engines to emit less than 80mg/km of Nox.

Question	Answers
What is Service Schedule of S11 PikUp?	15,000 km / 12 months <i>(Whichever earlier)</i>
What is Adblue® Usage per Vehicle?	Varies based on type of Driving Conditions, Driver Style etc
Is there a Warning/Alert if Low Adblue®?	Yes at 2400km, then again at 800km, then again at Last Ignition key cycle before non-start*

For further details please refer the FAQ section under ownership on our website
